“DJ Excel & his crew, **Skratch Makaniks**, are breathing life back into **turntablism**, while adding a flavor all their own. The city of brotherly love has been known as the home of unique styles & sounds. **Excel** sets himself apart with a **trademark sound** that’s heavy on the cross fader. His turntable tactics have earned him much respect from **Philly to LA** and the world over.”

“One of the few **true DJ's** left in the world. He is the “**Philly DJ sound**” that everyone talks about. **Excel** is one of the few dj’s that I’ve played a **4 turntable set with**”
